Pressure Tests

- Reminder, if you are performing a pressure test for any reason, you must have a pressure test permit.
- All fields on the permit must be completed, and all signatures are required except for the vendor, unless there is a vendor participating in the pressure test.
- All documents referenced on the permit must be with the permit.
- Permits cannot be signed off until the system has been walked.
- If you are NOT performing pressure tests, you need to be aware of the pressure test exclusion zones and ensure your crew knows to stay out of those areas.
- Pressurized systems can fail in a loud and potentially harmful way. We had 2 incidents last week with pressurized lines.
- Crews must be aware of these pressurized lines and need to protect them from damage if they must work near them (after tests are completed)
